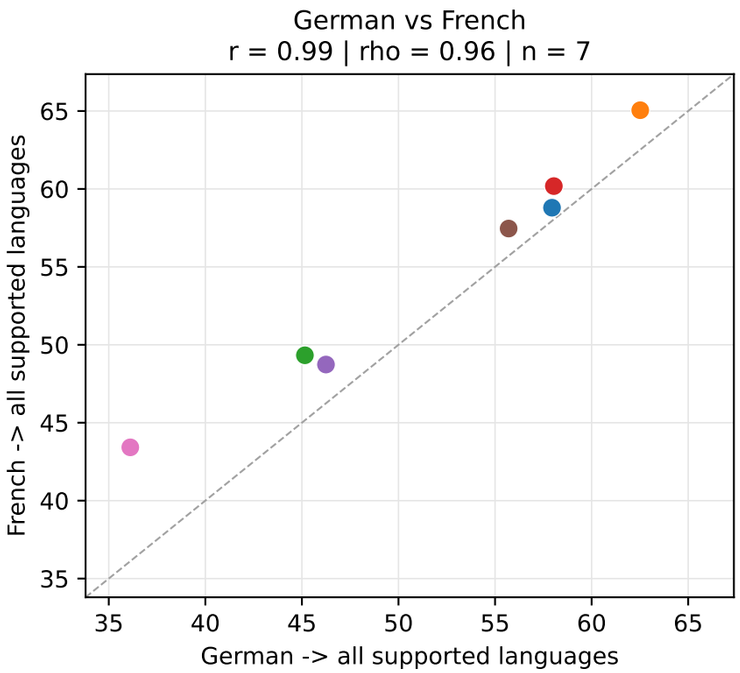
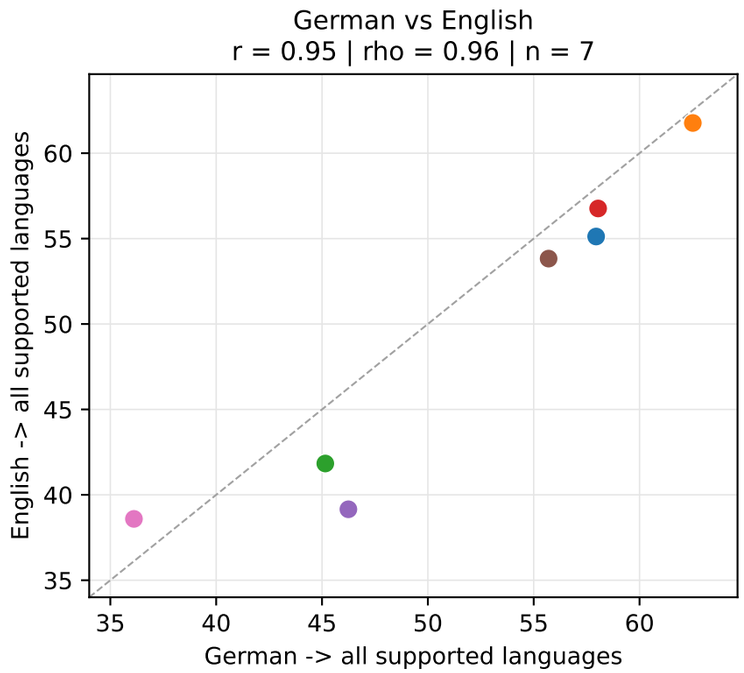
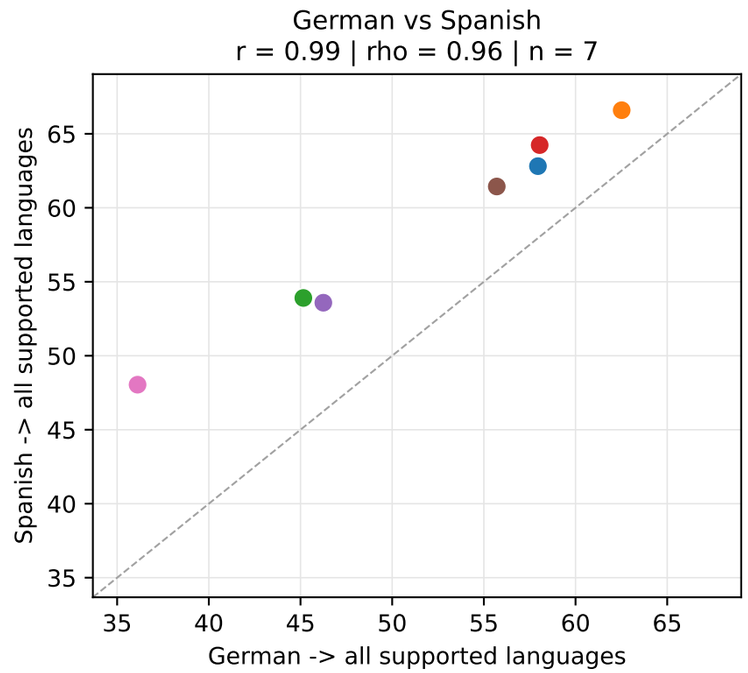
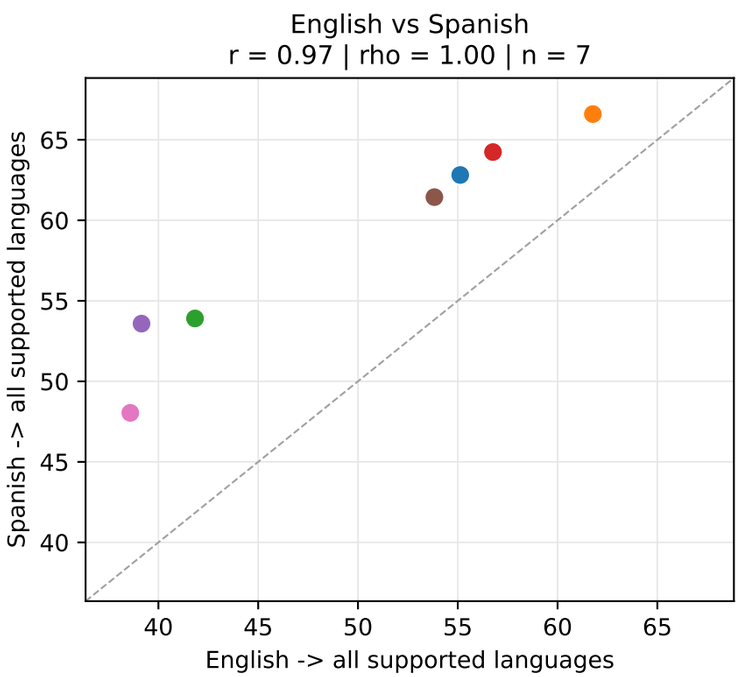
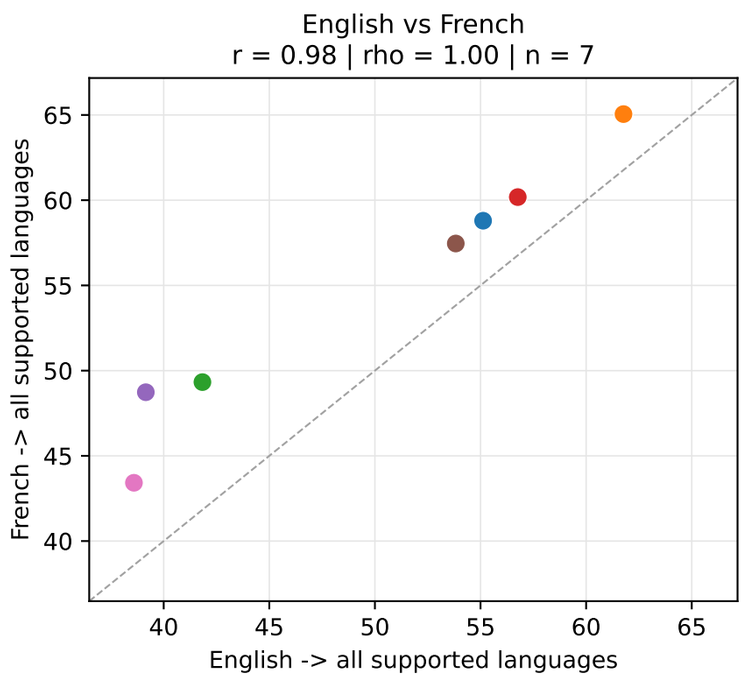
Combined From Language Performance | Variant-Aware Coverage
All datasets + both prompts | luna | llm_enriched

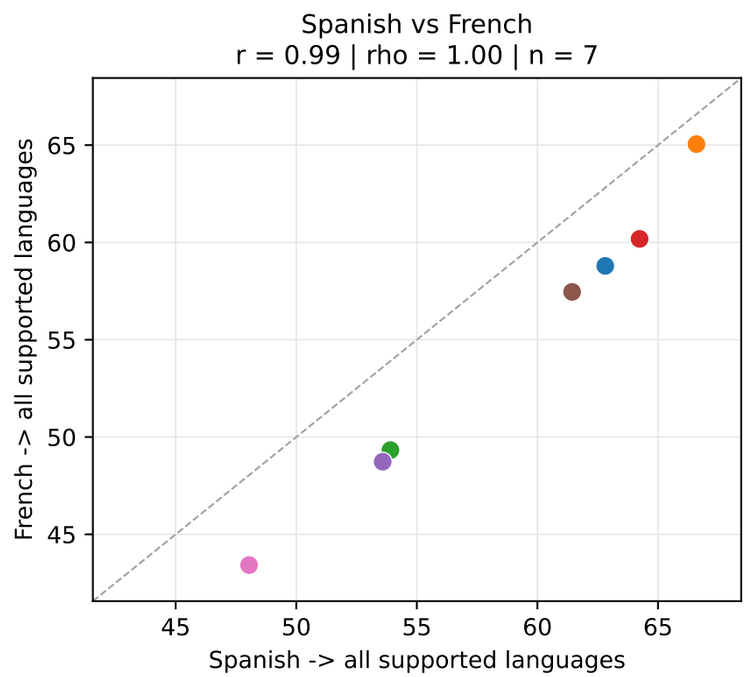












Gemma 4 31B
Granite 4.2 30B
Nemotron 3.5 Lightning
Tiny Aya Global
GPT-6 Luna
Muse Glimmer 30B
Qwen3.8 27B

One dot = one model's combined native-score mean. Equal partner-direction weights within each dataset/prompt stratum; then equal stratum weights.
Every language requires all datasets and both prompts. Partner sets may differ. Dashed line = equal scores, not a correlation fit.
Correlations may reflect overall model strength or partner composition; no significance or causal claims.
